SoCal SAAC

Greetings Gear Heads,  
2022 rolls in with COVID still controlling us and dictating our behavior... indoors, but at 80mph no problem! Weather has been mild, and I think we had our winter two weeks ago, but we can't predict that it won't come back in the next couple of weeks, so check the tires, keep the fluid levels and lets continue to give COVID the middle finger and get out there!

We had a good run to Segarstrom Museum last weekend (Jan. 9) in Irvine, wow what a nice place to visit. I was riding with Mark Coulter and on the way up Mark got excited shifting into fifth gear and the Tremec said no, you can only use fourth gear. No problem says Mark, so we proceeded to the museum and back home in fourth gear... riding with Mark is an adventure!

We will be having a General Membership Meeting at JBA Speed shop Saturday Jan 22 in the AM. Jay never disappoints when we have meetings there. Coffee, OJ, Donuts, and breakfast burritos will be served. Dress accordingly and bring your own chair!

We have a very dynamic team running the show, with many events, road trips and meetings that are sure to please. Please be sure to attend some or all the events of 2022 partake in the fellowship and camaraderie.

Cheers,
