

KIDS ZONE

The emphasis here is “Hands-On” allowing kids to experience the fun of making something, and exploring the world of Carroll Shelby Cars.

Here are the activities in the Kids Zone:

- 1) Carroll Shelby Coloring Books and crayon to practice their color schemes when they have their own a Shelby car! There are lots of colors used on Shelby Cobras, but there is a specific strip Carroll Shelby used on his cars, can you figure out what that is? Limited to Coloring books and crayons on hand!
- 2) Carroll Shelby Scavenger Hunt!
Kids and parents will be given a list of cars to identify within the car show. Kids will escort their parents and see if they can properly identify 10 particular Shelby designs then record the parking stall number, and when all 10 cars are identified the child will return the list and choose a 1/32 scale Shelby Cobra or Match Box Cobra. Limited to THE number of toy cars on hand!
- 3) Hand tool to power tools!
This activity allows kids to take apart a Break Assembly, Carburetor, Starter, and many more car parts. The object is to take them apart then assemble them back together using hand and power tools. Caution this could get dirty for these junior grease monkeys! Limited to how long the power tool batteries last!
